

Each college is allocated \$3,000 for each vacant position to recruit new faculty. Departments will complete all the paperwork for the travel in Chrome River. **Each department and Dean's Office will be responsible for tracking their vacant positions and the expenditures for each position.**

Prospective Faculty candidates in travel status should exercise the same care in incurring expenses that a prudent person would exercise if traveling on personal business and expending personal funds. Excessive costs, circuitous routes, delays or luxury accommodations and services unnecessary or unjustified in the performance of official business are not acceptable under this standard.

NOTE: Candidate should not make any purchases until the pre-approval is fully approved.

Prospective Faculty travel follows the same policy and procedure as outlined on the Controller's Website. Below is a brief outline of the procedure.

Note: Local Hotel Charges can be a direct bill to the department. Otherwise, we do not pre-pay any expenses for prospective faculty. **Note: Do you use the department Pcard for the hotel expense.**

Note: Very important: Please remember when you have a prospective faculty that has been taken out for any meal you cannot reimburse the prospective faculty for that meal. Chrome River asks you to "exclude" meals that don't need to be reimbursed. You will need to select the meals that do not need to be reimbursed. This is very important. We can't reimburse the prospective faculty and the person who takes them out to eat.

Receipts for expenses must be included with the reimbursement request.

Examples of expenses needing original receipts are:

1. Hotel Expense; lodging and taxes only (no food, movies, etc.) – Final invoice in candidate's name including form of payment showing last 4 digits of credit card and zero balance folio from hotel
2. Local hotels can be direct billed to departments (dept must work with hotel directly for this option). Only the cost of the hotel and taxes will be covered.
